P.B.S.® ROUTERS

From the unsurpassed quality of our advanced superabrasive products to the unmatched expertise of our people, we've got what it takes to engineer the best solution for your specific needs. This is where you'll find innovative thinking that's precisely right for your most challenging applications.

ABRASIVE TECHNOLOGY IS: **EXPERIENCE**

At the forefront of the superabrasives industry since 1971, Abrasive Technology has earned a reputation for excellence through thousands of successful applications across a broad range of industries.

ABRASIVE TECHNOLOGY IS: **INGENUITY**

Our culture is built around finding creative ways to solve problems for our customers. We work closely with customers in a broad range of industries to design and implement innovative solutions that enhance manufacturing processes as well as the overall bottom line.

ABRASIVE TECHNOLOGY IS: **CRAFTSMANSHIP**

We take pride in our work and take every detail into consideration. That's how we ensure that our products continue to set the standard for quality and performance. Our customers don't compromise on quality — and neither do we.

1975

US PATENT FOR P.B.S.®

1978

US PATENT FOR GEAR SAVER®

A HISTORY OF INNOVATION

From day one, Abrasive Technology has been a pioneer in the development of superabrasive products and processes. In fact, many of the industry's most significant technological advances in the past 40 years are attributed to our founder, Loyal M. Peterman Jr., and to our engineering teams.

2000

US PATENT FOR EVERLAST® PCD DRILL

2008

US PATENT FOR SEAMLESS WHEEL TECHNOLOGY

VALUE-DRIVEN SOLUTIONS

Abrasive Technology is more than a supplier of innovative grinding wheels and tools. As leading experts in the field of superabrasive products, we help our customers address complex operational issues and optimize critical manufacturing processes. To us, a superior product line is just the beginning. Our goal is to make your operation more productive, more cost-effective and ultimately more successful.

THE SCIENCE BEHIND THE GRIND

After 40 years in business, we remain focused on superabrasive grinding wheels and tools. It's a science that we helped transform — and a craft that we're working every day to perfect. Through continuous innovation and product enhancement, we meet the most demanding specifications and solve the most challenging applications.

QUALITY-ASSURED MANUFACTURING

Our facilities have the people, the processes and the equipment needed to achieve the highest standards for quality – as well as the industry’s leading QA certifications. This commitment to quality plays an integral role in our products’ superior performance in efficiency, tool life, removal rates, and ease of implementation.

A man with glasses and a plaid shirt is leaning over a workbench, looking intently at a task. The background is a blurred industrial setting with machinery. In the top right corner, there are two small inset images: one of a smiling woman and another of a server rack.

INDUSTRY-LEADING EXPERTISE AT WORK FOR YOU

Abrasive Technology associates share a deep commitment to quality that keeps us ahead of the curve. From sales to engineering to manufacturing, our people are problem solvers at heart. Their knowledge, experience and ingenuity are the key to our success — and yours.

GLOBALY NETWORKED TO SERVE YOU BETTER

Throughout the world, all Abrasive Technology facilities stay connected through Precision Link, our globally networked communication system. This integrated network gives our customers and distributors real-time access to order tracking, price quotes, inventory and invoices. From design through implementation, you'll find that working with us is always easy, efficient and collaborative.
