

CONTINUUM™

SEAMLESS DIAMOND ABRASIVE
STRIPS FOR SUEDED TEXTILES

Continuum™ (40X)

Competitor (40X)

Abrasive Technology's seamless diamond strips for textile sueding eliminate breakage at the seam, allowing for continuous textile sueding production without interruption for strip replacement. Strips will completely wear before needing replaced, resulting in increased, predictable performance and production.

SUPERABRASIVE SUEDED BENEFITS

- Single layer Kevlar® strip resists heat and prevents stretching
- Precisely spaced diamond pellet placement and concentration for best swarf removal and cool performance
- Reduces down time for up to *25% INCREASE* in throughput
- Produces a perfect finish and eliminates fiber strain from build up

SUPERABRASIVE SUEDED FEATURES

Grits: 150, 220, 400, 600

Sizes: 3" x 264" and 75mm x 6700mm

Finish: Standard or Silver for additional performance

Fitting: Any Vertical, Horizontal, or Drum machines

➤➤ Compatible with all leading machines, both wet and dry use
