

- LARGE - ELECTROPLATED GRINDING WHEELS

UP TO **50"** IN DIAMETER

IDEAL FOR FORM, FACE AND O.D. GRINDING OPERATIONS

ABRASIVE TECHNOLOGY ADVANTAGES

- 45+ years of proven plating expertise
- Excels at manufacturing precision tight tolerance complex forms
- Technical engineering support for maximizing customer applications for ultimate product performance
- Best in class for lead time

CAPABILITIES

- Tight tolerance
- Custom forms
- Stripping and replating the core
- Available in wide selection of diamond and cBN abrasives

MATERIALS

- Nickel-based superalloys
- Engineered ceramics
- Cobalt-based superalloys
- Cast iron/steel
