BOND WHEEL
DIAMOND AND CBN
GRINDING WHEELS TO
EXACTING STANDARDS

STANDARD CARBIDE DRILL FLUTING
WHEEL & MICRO TOOLS FLUTING WHEEL

Designed for both carbide and steel applications, our fluting wheels provide highly predictable wear rates to maximize your machine’s automatic compensation feature. Available for Rollomatic and other CNC grinding equipment, Abrasive Technology ultra precision fluting wheels are capable of fluting drills to .25 MM (.0098”) and maintain an ultra-high G-Ratio competency.

ROUGHING AND FINISHING
WHEELS FOR PEEL GRINDING

Abrasive Technology peel grinding wheels deliver impressive productivity gains on Rollomatic and other CNC grinding equipment. The roughing and finishing wheel set can yield up to 4,000 parts per dress and produce 2-3 Ra finishes. Utilize our peel grinding wheels when grinding carbide, high speed steel and 400 series surgical stainless to dramatically reduce run time.
At the forefront of the superabrasives industry since 1971, Abrasive Technology has earned a reputation for excellence through thousands of successful applications across a broad range of manufacturing sectors.

Our culture is built around finding creative ways to solve problems for our customers. We'll work closely with your engineers to design and implement innovative solutions that enhance your manufacturing processes and your overall bottom line.

We take pride in our work and obsess over every detail. That’s how we ensure that our products continue to set the standard for quality and performance. Our customers don’t compromise on quality — and neither do we.
